ACE® LOGICAD FUSION

VP-FPAX8P

Product Description:

The Ace Logicad Fusion LF-S8RT5T is a high-end workstation designed to meet the needs of professionals who require exceptional computing power and reliability. This system features the AMD Ryzen Threadripper 7960X processor, which boasts 24 cores and 48 threads, providing unparalleled performance for multi-threaded applications. The workstation is equipped with 128GB of DDR5 memory, ensuring smooth multitasking and efficient handling of large datasets. The inclusion of a high-capacity CPU air cooler and a 1300W Gold power supply ensures that the system remains cool and stable under heavy workloads.

The Fusion LF-S8RT5T also comes with advanced storage options, including a 1TB NVMe M.2 SSD for fast boot times and application loading, and a 4TB NVMe M.2 SSD for ample storage of large files and projects. The AMD Radeon Pro W7700 graphics card delivers exceptional performance for graphics-intensive tasks, making this workstation an ideal choice for content creators and designers.

With a variety of connectivity options, including multiple USB ports, 2.5GbE and 10GbE LAN, WiFi 6E, and Bluetooth 5.2, the LF-S8RT5T ensures seamless integration into any professional environment. The system is housed in a sleek black mid-tower chassis, providing both aesthetic appeal and practical functionality.
